Marjorie

I am very sorry about you aunt.

I will check with Pat but I know he was anxious to meet with the Colonel. His only restriction was he had something in Phoenix in the morning but I believe he should be able to accommodate a 10:30 meeting depending upon the meeting location.

Regards

Kathy

Kathy

Thanks for getting that to EPA ASAP.

The Executive Office is in quite a hurry to confirm whether we can meet or not so any expeditious confirmation will be greatly appreciated.

Thank you for the wishes. My very favorite and dear aunt suddenly passed away. I left on Sep 11 and just recently returned.

Marjorie

Marjorie

Thank you for your note, I hope everything is okay with your family.

We appreciate the Colonel's time and I know Pat was going to confirm with you directly. As to a copy of the document for Elizabeth, I just contacted WestLand and she will have a copy by the end of the week - we missed FedEx today so it will have to go out tomorrow.

We look forward to hearing from you, please don't hesitate to let me know if you have questions.

Regards,
Kathy

Kathy

Thank you for your email. I have been out of town due to a family emergency and am just now getting back at it. I was not in my office today but Sallie did say she received her pkg and I know LA received theirs.

Could you please fedex a copy to Elizabeth Goldmann at EPA posthaste? I would like EPA to begin their review as we are conducting ours.

I left a message for both you and Pat that Colonel Colloton will be in Tucson on Oct 10 and is requesting to meet with you all at 10:30 that morning. We would need to know if that will work ASAP and also the location. This meeting is in response to your request from August and we believe it is important the Colonel have an introductory meeting with HB.

I am not certain our review will be completed by Oct 22. It is up to Colonel Colloton whether we meet regarding the mitigation plan. Her position, to date, has been that we will not have a meeting on "enhanced" mitigation. It will also be her decision as to responses to items HB wishes to have clarified.

Thanks, Kathy.

Subject: [EXTERNAL] Hubbay HMMP Submittal

Marjorie,

I just wanted to drop you a note to let you know we arranged to have a full HMMP package delivered today as you directed to the office of each member of the project review team - one copy to your office, two copies to the Ventura office, and one copy to the Phoenix office. I understand a package is being delivered to LA tomorrow. The package consists of a transmittal letter, a 2008 rule compliance table, a memorandum with discussion points we still believe need clarification, and the package itself (HMMP and financial information). As you will see we have expanded the acres at Sonoita Creek Ranch, increased the amount of total acres and updated the information provided. Other than areas where we have asked for clarification, we used the information you provided to us verbally in May of this year in the checklists for our calculations.

We look forward to your fulsome review of the package and to receiving the Corps' feedback on the specific elements. Hudbay views permitting as a process and look forward to on-going dialog regarding the robust mitigation package we have presented. We would like to schedule a meeting with you later in the month and are proposing either October 22 or October 29 to review the package, answer any questions that may arise and determine the required next steps in advancing the permitting process. We would be happy to accommodate other dates as well, please just let us know and we will go wherever it is most convenient for the Corps - Tucson, LA, Phoenix, or Ventura - to ensure all questions are answered.

I look forward to hearing from you.

Regards,

Kathy
